Anti-glare Filter for iPhone 6 Plus

Anti-glare Filter iPhone 6 Plus. Highly effective.

The DICOTA screen protector takes care of various tasks: it protects the screen against scratches, reduces annoying fingerprint marks and is easy to attach. In addition, the high-resolution screen becomes anti-reflective, ensuring clear visibility. The screen protector is your first choice.

The screen protectors from DICOTA are manufactured using state-of-the-art precision machines and are accurately cut to the appropriate size. The perfect fit is guaranteed. The protector is very easy to attach. It attaches to the screen in seconds and starts working immediately. No more scratches, fewer annoying fingerprint marks and high anti-reflective function for your tablet. The film can be removed easily without leaving any residues at any time. Rely on a German quality product: simple and practical to use.
